

# Issues That Concern You

New Titles from Greenhaven Press®

Take Issues That Concern You to the next level

**FULL-COLOR** Even before the language arts or social science assignments are handed out, students will have a vested interest in the heated contents of the *Issues That Concern You* series. Each title discusses an issue that either is part of their life or is likely affecting someone they know.

Like our popular *Introducing Issues with Opposing Viewpoints*, this colorful series offers visually appealing anthologies that present multiple sides to current issues. However, *Issues That Concern You* distinguishes itself through its dedicated focus on concerns that today's middle and high school students deal with regularly, such as *Underage Drinking* and *Obesity*. Moreover, *Issues That Concern You* recognizes the intimate relationship between its subject and readers as it weaves together divergent points of view. In addition, backmatter offers facts and "self-help" style advice to young people grappling with the issues.

This exceptional series encourages students to discover wider perspectives on issues familiar to them. Fostering critical thinking, each anthology presents many different opinions on a single topic, ensuring a balance of viewpoints on issues such as *Student Drug Testing* and *Downloading Music*. Thus, *Issues That Concern You* is a valuable class resource and research tool, in addition to being an inviting series for students to explore their own personal issues.

Grades: 7-10  
Book Size: 7"x9"
