

Social Issues Firsthand

New Titles from Greenhaven Press®

Take Social Issues to the next level

Behind policy debate about welfare reform, AIDS funding and hate crime laws are people — people struggling with poverty, illness and discrimination. Illuminating the often-neglected human side of society's pressing problems, *Social Issues Firsthand* is a must-have series that broadens and balances readers' exposure to current social issues, such as homosexuality, poverty and hate crimes. Each anthology in the series presents a diverse collection of personal narratives written by individuals with first-hand experience in the topic being discussed, either as a participant, a witness or an involved professional. *Terrorism*, for example, includes the perspectives of terrorists, victims, families of victims and emergency workers.

Providing a personal context for the most pressing topics of today's political discussions, each volume in *Social Issues Firsthand* features a/an:

- Introduction grounding each book in essential context
- List of organizations to contact
- Thorough bibliography guiding further research
- Annotated table of contents
- Thoughtful index enabling quick access to target information
- And more
